MESSAGE

KEKAL & TEKAL (Preseverance & Grit)

As quoted by Michael Jordan, "Obstacles don't have to stop you. If you run into a wall, do not turn around and give up. Figure out how to climb it, go through it, or work around it." Keeping that in mind, let us look at the bright side even though the Covid-19 pandemic is still not declining. The National Book Council of Malaysia (NBCM) believes this is the right time to explore potential actions which could help the Malaysian publishing industry to reach out to foreign partners and improve its international exposure.

Not forgetting, publishing is an ever-evolving landscape, one that can be quite unpredictable to gauge. With that belief, Malaysia once again presents our best works – **The 50 Best Malaysian Titles 2020/2021**, both in printed and e-catalogue to the international level with the hope of showcasing Malaysia's uniqueness in books form.

Getting the opportunity to participate in this prestigious Book Fair is a dream for those involved in publishing industry. This is the time, for us to get access to the international market, meeting with sellers, buyers, traders from all over the world including scouting for agents and translators.

NBCM will ensure that the Malaysian book industry will continue to shine in spite of challenges and obstacles.

We believe, there is a way out there, to market our books, channel them correctly through e-commerce and establish partnerships to deliver a long-term sustainable ventures for our book industry to preserve on a stronger grounds. Through the 2020/2021 online store, we were fascinated to learn that there was a huge resurgence in the sale of old classics, with readers going back to the nostalgia of books they loved in the past for entertainment and education. We predict that this will influence future publishing trends and may even be the content for authors to meet readers' demand.

We believe this catalogue would be a note of success for the readers and traders to dwell with. As the National Book Council of Malaysia, we will always strive for the sustainability of the book industry which would always be relevant in people's life.

Thank you.
